Phlippo Showlights Boosts Robe LED Moving Light Stock

Products Involved

LEDWash 1200™ **LEDWash 300™** **LEDWash 800™**

Lier, Antwerp based Phlippo Showlights – one of the major Benelux lighting and visuals rental companies – has increased its already large stock of Robe moving LED lights with the addition of more Robe LEDWash fixtures – all to service current work.

Phlippo supplies lighting and visuals equipment and crew (as required) to all sectors – concert touring, live shows, television and theatre productions, conferences and corporate presentations, special events, festivals and parties.

The latest investment – of 32 x Robe LEDWash 300s, 32 of the new LEDWash 800s and 120 x LEDWash 1200s – boosts their Robe LED fixture stock to over 450 units A number expected to continue growing.

The first batch of 60 (out of 120) of the new LEDWash 1200s are touring with the prominent, highly visual production of 'Ice Age Live', specified by LD Luc Peumans of Painting With Light. The tour is scheduled to tour internationally for five years, with all lighting, audio and video equipment supplied by Phlippo.

The LEDWash 800s were purchased after Phlippo's huge all-round success with the LEDWash 600, and are the first of this specific LEDWash model in the region.

More of the latest Phlippo Robe units are being used to light an arena tour of 'Peter Pan', a spectacular production with lighting designed by Christian Stenuit. The show is directed by Luc Petit and produced by Geert Allaert.

Such has been the demand for LEDWash 1200s generally that Phlippo has just confirmed an order for another 60 units – making up the 120 mentioned above.

Phlippo's Robe fixtures have all been delivered from Robe's Benelux distributor, Controllux. It reflects a real confidence that Robe's ROBIN series generally - and their LED fixtures specifically - are the best, most reliable and cost-effective option available right now.

Phlippo Showlights, headed by Tom Phlippo, has been at the cutting edge of the show and entertainment technology business for over 50 years.
